BI-WEEKLY WAGES.

Charges of Employes.

Certain firms in the State have been charged with forcing their employes to sign petitions to the state labor commissioners for bi-weekly payment of wages, and the charges have been filed with the commissioners. The charges have been written in three instances and in one instance verbal. The employes who make the charges say they were told to sign the petition or be discharged, and one complaint specifies one instance where six men refused to sign the petition and were discharged. The labor commissioners will make thorough investigation of these charges this week, and if they are found to be true will decline to grant the certificates permitting the biweekly payment; or, if the certificates have been granted, they will revoke them. They insist that every name that comes into the office on a petition must be placed there voluntarily, and unless they are so placed there the petitions will not be considered. There has been little trouble over the biweekly law thus far, and in some instances the petitions for bi-weekly payment have contained the names of 90 per cent. of all affected. The commissioners require that the names of at least 50 per cent. of those affected shall be voluntarily on the petition. About 98 per cent. of the manufacturing establishments of the State pay wages week

ARRESTED MRS. SCHWARTZ.

She Was Driving at a Dangerous Speed and Caused an Accident.

Fully five hundred people gathered last night at the corner of Virginia avenue and Merrill street because of the overturning of a buggy in which were seated Henry J. Thalhamer and wife and another woman. They had stopped at a drug store on the corner and had just got into the vehicle again and were ready to start away when Mrs. James Schwartz, of 2505 Station street, Brightwood, drove by. Her vehicle caught the rear wheel of the other buggy and upset it. Mrs. Thalhamer and her companion were thrown out, but not badly injured. Witnesses say the Schwartz woman was driving at a dangerous speed, and some one, thinking the party, which consisted of James Schwartz and wife, John Martin, 1114 Cornell avenue, and Carrie Williams, 225 North West street, was not going to stop, grabbed the horse and held it until the arrival of the police. John Dold, a witness to the accident, said he had been compelled to drive as fast as possible to keep out of their with Mr. Dold said she heard the occupants of the two-seated rig say: "Let them go; we'll get them anyway." Patrolman Raftery drove with the party to the police station and Mrs. Schwartz was arrested for assault and battery. When Raftery got into the buggy the crowd which had gathered cheered. At Delaware street and Virginia avenue here was another accident, in which fast driving resulted in the overthrowing of a buggy and slight injuries to a woman occupant. The man escaped, but only by the abandonment of the rig, which was taken Alonzo Shafer, 713 Virginia avenue, was

Mercury Climbed High Yesterday at the Weather Bureau.

Yesterday was one of those notable days that call forth such original expressions as "Well, is it hot enough for you?" and other humorous epigrams of the "heated term." The heat was decidedly oppressive, and there was a lull in business all over the city that was accepted by even the most parsimonious without protest. The day was by far the warmest of the year, the mercury dimbing up as high as 90 in the shade at the office of the Weather Bureau between 2 and 3 o'clock in the afternoon. The weather officials said the intense heat was an advance agent of high winds and thun-derstorms and other climatic changes.

Such Orientals as are always found in the Ayres assortment, at such prices as are now being made, leave little to be desired. This store has done much to popularize these gems of Eastern art. In the first place, we have imported them extensively and systematically, and have priced them with strict regard to quality and cost. Moreover, we have placed them on the same basis with other dry goods. As the season advances unsold specimens are repriced to so low a point as to insure their disposal before the next season's importations arrive. Such repricing is responsible for the surprising list which follows
